

The West Mediterranean Technoparks Technology Development Zone accommodates innovative companies from a variety of sectors producing and employing state of the art technology focusing on R & D on a total area of 364.826,00 m². Antalya Technopark was launched on 1st January 2005 and is among the well-developed and mature technopark in Turkey.

The vision is to increase the technological share of Turkey within the global market in direct proportion to the technology produced by transforming the R & D studies supported by the university infrastructural means of Antalya Technopark into an economic power.

Antalya Technopark serves the future goals of this country by developing the geographical and economic characteristics of the region, the R & D and innovation potential, the entrepreneurial and academic ecosystem.

VISION

FIRST PRIZE GOES TO ANTALYA TECHNOPARK

During the 6th Technology Development Zones Summit organized by the Ministry of Science, Industry and Technology, Antalya Technopark achieved great success by ranking 1st in the Best Developing Technology Development Zone (TGB)

Producing a catching performance, and besides being awarded first prize in this category, Antalya Technopark rose from 35th position up to 10th position in a year, thus ranking 10th among 77 Technoparks in

POSSIBILITIES

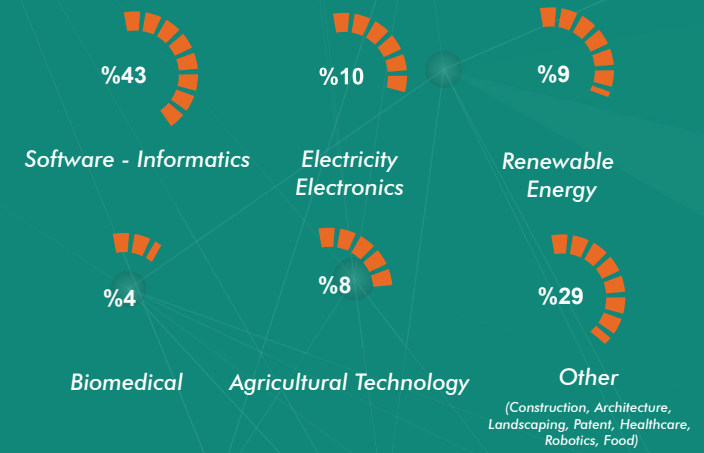

Antalya Technopark provides units to support access to the major national and international funds and donations, such as TÜBİTAK (Scientific and Technological Research Institute of Turkey), KOSGEB (Small and Medium Enterprises Development Organization) supports and EU programs, as well as training services in these subjects and benefits to institutions from micro-scale businesses to giant firms.

Besides the infrastructural means within this region, such as electricity, water, telephone, heating, cooling, fiber optic Internet support is also offered.

Also included among the infrastructural means offered to firms are indoor and outdoor common areas such as 3 social markets, bank, cargo, easy access to ATMs, proximity to the Mediterranean (Akdeniz) University sports facilities, private car park, cafeteria, private security service, general cleaning service, meeting room, foyer area.
